

**LEAD PROJECT**

**The 24/ 10/ 2022**

**Huye District**

**Rwanda**

**REPORT OF HYGIENIC MATERIALS ASSISTANCE OFFERED TO WASH CLUBS IN HUYE DISTRICT**

**Introduction:**

**Brief:**

LEAD PROJECT refers to "Leadership, Entrepreneurship and Accountability for Development", its intention is to help young generation to be future good leaders, entrepreneurs by being accountable for development. Also within this project there is 'Hygiene and Sanitation Program' as a way of helping youth to contribute to the communities with the aim of maintaining a good health of biodiversity.

On 24<sup>th</sup> October 2022, through this program, LEAD made a field work, intended to offer materials assistance to Wash Clubs from two schools in Huye district. In previous

workshops of trainings, the Wash Club members wished to have materials assistance in order to improve their contributions on Hygiene and Sanitation as Wash Clubs at Schools and their communities. 'Lead' have received this request and respond it positively. At Wednesday, 24<sup>th</sup> October 2022, LEAD organized an event of offering those materials in order to empower those clubs. Some hygienic materials offered are Cotex, Soaps, watering cans, cosmetics oil, Buckets, Basin for washing and Purifiers of water. 120 members of clubs from two schools ( E.P Mbazi, G.S Mwulire) after receiving those Hygienic materials, were very happy and sais that those materials are going to help them in increasing Hygienic and sanitation practices at School and their communities. Also they expect to enlarge their clubs even out of schools due to empowerment they got from LEAD trainings and facilitations.

Today, each club is composed of 60 members. 120 students already trained by LEAD on Hygiene and sanitation. They are ready to continue mobilization at school and outside; All clubs members have told LEAD representatives that materials they have received are going to help them in their club activities such as practices.
